Instructions

The model for Pumpkin Cat Magic is recommended to be stitched over 1 on 25 count fabric but you may use any count that you are comfortable with. Please use 1 strand of floss or 2 depending on your coverage preference. Charts are recommended to be stitched from page 1 top left to the last page bottom right.

If the chart contains Kreinik 032 #4 (very fine braid) we recommend that you experiment with a couple of options. Start with 1 strand of Kreinik 032 Blending Filament with one strand of white as well as trying the Very Fine Braid to determine the look that you like most.

You may also use the tent stitch or full crosses depending on your preference.

We thank you for purchasing this design and welcome any questions or comments that you may have.

Figure 1 displays a 10x10 grid of 100 small plots, arranged in 10 rows and 10 columns. The columns are labeled 390 and 400, and the rows are labeled 10, 20, 30, 40, 50, 60, 70, 80, and 90. Each plot shows a spatial distribution of points, with the density and pattern changing as the parameters vary. The plots are arranged in a grid where the columns represent different parameter values (390 and 400) and the rows represent different parameter values (10, 20, 30, 40, 50, 60, 70, 80, and 90). The plots show a transition from a uniform distribution to a patterned distribution as the parameters change.
