## Instructions

The model for California Dream is recommended to be stitched over 1 on 25 count fabric but you may use any count that you are comfortable with. Please use 1 strand of floss or 2 depending on your coverage preference. Charts are recommended to be stitched from page 1 top left to the last page bottom right.

If the chart contains Kreinik 032 #4 (very fine braid) we recommend that you experiment with a couple of options. Start with 1 strand of Kreinik 032 Blending Filament with one strand of white as well as trying the Very Fine Braid to determine the look that you like most.

You may also use the tent stitch or full crosses depending on your preference.

We thank you for purchasing this design and welcome any questions or comments that you may have.

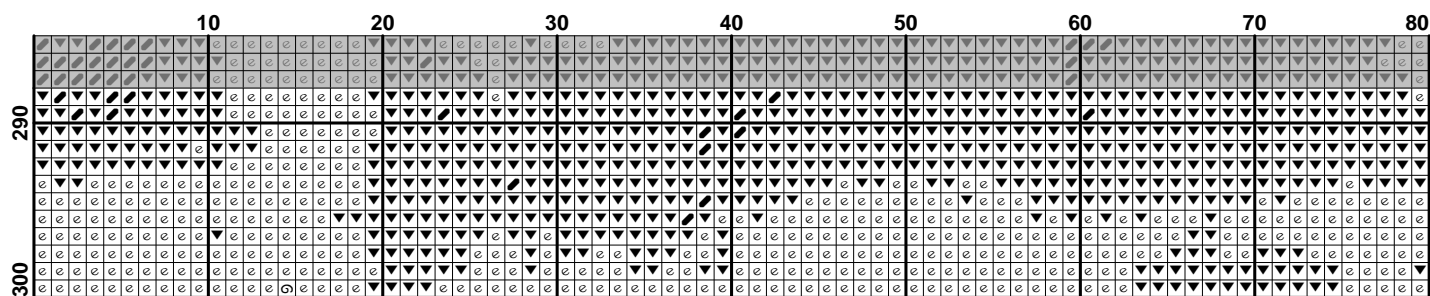

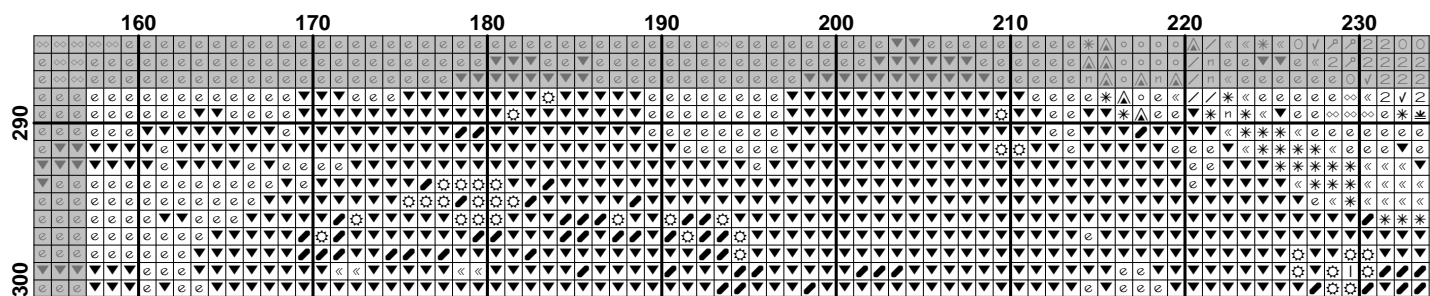

Figure 1 displays a large grid of 1000 small plots (20 rows by 50 columns) showing the evolution of a system over time. The columns are labeled 80, 90, 100, 110, 120, 130, 140, and 150. The rows are labeled 290 and 300. The plots show a transition from a state of 'e' (empty) to a state of 'm' (occupied) over time, with a clear boundary moving from left to right.

[illegible]
