Finishing Instructions

Please keep in mind that these are simplified instructions and do rely on the fact that you will have some sewing experience. There are also a number of shops that will finish your stocking for you if are not comfortable making your own.

You may stitch your stocking on any fabric that you like and once the stitching is complete you will then create a template.

A template may be made by tracing the finished design with an additional 1/4 inch margin onto fusible interfacing (fusible side up). Then choose a backing fabric and cut to the same size as the front with the fusible interfacing. You will then fuse the interfacing to the back of the stitching.

At this point you can baste a hanging loop that can be cord or any material you desire.

You may use some decorative cord or just leave plain. Pin the right sides together and then machine stitch around the perimeter being careful to not cover your stitched area leaving a small opening to pull the stocking through from wrong side to right side.

Once you have sewn together then clip little slits in the 1/4 of fabric left around all edges with a curve so that when turned inside out the edges will lay properly.

Then turn right side out, whip stitch your opening closed and voila, you have a beautiful stocking.
