## Instructions

The model for Merlin and Arthur is stitched over 1 on 25 count Dublin Linen. Please use 1 strand of floss or 2 depending on your coverage preference.

It is recommended that you make working copies and enlarge to view detail and symbols.

You may also use the tent stitch or full crosses depending on your preference.

This is a large project that will offer many hours of stitching pleasure.

We thank you for purchasing this design and welcome any questions or comments that you may have.

The image displays a large grid of symbols, organized into 8 groups of 10 rows each. Each group is labeled with a vertical number on the left (10, 20, 30, 40, 50, 60, 70, 80) and a horizontal number at the top (500, 510, 520, 530, 540, 550, 560). The symbols are a mix of geometric shapes, arrows, and abstract patterns, creating a complex, textured visual.

This figure displays a large grid of 1000 small images, arranged in 10 rows and 100 columns. The columns are labeled 380, 390, 400, 410, 420, and 430 at the top. The rows are labeled 160, 170, 180, 190, 200, 210, 220, 230, 240, and 250 on the left. Each small image is a grayscale pattern, likely a face, with varying features and backgrounds. The patterns are generated by a process that combines a set of basis images (columns) with a set of weights (rows) to create a specific face image.

This figure displays a 310x310 grid of small images, totaling 97,000 individual patterns. The grid is organized into 10 rows of 31 columns each. The rows are labeled on the left side with the numbers 240, 250, 260, 270, 280, 290, 300, and 310. The columns are labeled on the top side with the numbers 250, 260, 270, 280, 290, 300, and 310. Each small image in the grid represents a unique pattern, likely generated from a set of parameters. The patterns vary significantly in complexity and structure, ranging from simple, uniform backgrounds to highly intricate, multi-colored designs. The overall arrangement suggests a systematic exploration of a parameter space, with the grid layout facilitating the visualization of how patterns change as parameters are varied across the dimensions of the grid.
