After adding the cross stitches add the stems and grasses with one ply of SNC 055.  
Backstitch the round tiny ball in each corner with one ply of black silk.

For the “over one” butterflies you can stitch them with a full cross stitch ,using one ply of the thread over one thread of the fabric. You can as well make smallest “tent stitches” or half cross stitches with two plies of the thread over one fabric thread – try which way of stitching meets your expectations better !

The antennae of the butterflies are worked in backstitching with black silk too.
