### *The Medieval Town Mandala January 2006*

Cross stitch first, and take good care that you work all those half or  $\frac{3}{4}$  cross stitches to "shape" the leafs. The effect is well worth the torture ☺ Add stems to the flowers in Backstitches in the same color as their leafs.

Backstitch around the gold frame with one ply of black silk. Use the same thread to backstitch around the "fence". Inside the fence work the vines with SP 012 in backstitching again.

Sew on the beads to make this part complete.
