### *The Medieval Town Mandala*

### *Part 9 June 2006*

OK – this is the fourth of four parts of Medieval buildings –this month's part is the left side. Stitch all cross stitches first.

Backstitching as follows :

**All** Backstitching lines are worked with one ply of black NPI silk – regardless which color the lines have on your chart ! ( Lines around roofs, flags on top, posts on roofs, lines around windows etc...)

The vines on the tiny tower are stitched with SNC 055.

Where the design is identically to the previous part stitch the same Special Stitches with the same threads.
