Instructions

The model for Innocence is recommended to be stitched over 1 on 25 count fabric but you may use any count that you are comfortable with. Please use 1 strand of floss or 2 depending on your coverage preference. Charts are recommended to be stitched from page 1 top left to the last page bottom right.

If the chart contains Kreinik 032 #4 (very fine braid) we recommend that you experiment with a couple of options. Start with 1 strand of Kreinik 032 Blending Filament with one strand of white as well as trying the Very Fine Braid to determine the look that you like most.

You may also use the tent stitch or full crosses depending on your preference.

We thank you for purchasing this design and welcome any questions or comments that you may have.

The figure displays a 10x100 grid of small images, totaling 1000 images. The rows are labeled 290, 300, 310, 320, 330, 340, 350, 360, 370, and 380 on the left. The columns are labeled 160, 170, 180, 190, 200, 210, 220, and 230 at the top. Each small image shows a different pattern of black and white pixels, representing a specific combination of row and column indices. The patterns are highly varied and complex, suggesting a high-dimensional space of possible configurations.

Figure 1 shows a 10x10 grid of 100 cells, representing the evolution of a 2D Ising spin glass. The grid is divided into four quadrants by a vertical line at column 5 and a horizontal line at row 5. The top-left quadrant is labeled '390' and the top-right '400'. The bottom-left quadrant is labeled '480' and the bottom-right '490'. The bottom-most row is labeled '500'. The grid shows a transition from a mostly uniform state to a highly fragmented state with many small clusters of different colors (black, white, and gray) and arrows indicating spin orientations.
