We know it will bring you many hours of pleasurable stitching and believe the final result will be something to love and admire forever.

Included with your chart is a clear plastic bag to protect your chart, and a coded thread list for the threads you will need to complete your project. Our charts are designed to use DMC stranded cotton threads and, where appropriate, Kreinik metallic thread.

### **Chart Instructions:**

1. This chart is made up of several numbered pages beginning at the top left corner of the first page. The pages of chart are laid out from left to right in rows e.g. 1 2 3 4, 5 6 7 8. Although each chart is marked with arrows which indicate the centre, we believe you will find it easier to begin from the top left corner of page 1 and follow the chart page by page to the bottom right corner of the last page.
2. We recommend you stitch your design on either 18 count Aida or 25 count Linen. using 2 strands of cotton over one in each case.
3. At the top of the thread list you will find our recommendation for the fabric colour. We recommend purchasing a piece of fabric that equates to the design size plus 3 inches [75mm] all around, to allow for framing and matting.
4. Because of the large number of stitches, we have found it to be easier if you stitch one 10X10 grid at a time and then continue on to the next 10 x 10 grid.
5. Stitch each page until it is completed and then move on to the next. On each page there is a number at the top left that indicates the page number. On each corner is a number in parenthesis that indicates the connecting page, unless there is not one.
6. Under International Copyright Laws, you may copy the chart for your own use. We recommend that you use a copy as your working document. You may also wish to enlarge the pages to make the symbols easier to read.

**If you have any questions regarding this chart please feel free to contact us.**

380								

The image displays a large grid of 1000 small images, arranged in 10 rows and 100 columns. The grid is labeled with row numbers 290 to 380 on the left and column numbers 770 to 850 on the top. Each small image contains a different pattern of symbols, including letters, numbers, and geometric shapes, arranged in a way that suggests a complex, possibly encrypted, message.

The image displays a large grid of small icons, organized into two rows labeled 860 and 870 on the left. The columns are numbered from 620 to 690 at the top. Each cell in the grid contains a small, square icon with a unique symbol or pattern. The icons are arranged in a regular grid, with each row containing 100 icons. The symbols are diverse, including letters, numbers, geometric shapes, and abstract patterns. The overall layout is a structured array of these small visual elements.

Figure 1 displays a 2D grid of 1000 small images, arranged in 10 columns and 100 rows. The columns are labeled 700, 710, 720, 730, 740, 750, 760, 770, 780, and 790. The rows are labeled 860 and 870. The images show a complex, evolving pattern of black and white shapes, likely representing a biological or physical process. The patterns are highly detailed and vary significantly across the grid, suggesting a dynamic system. The overall appearance is that of a high-resolution, black-and-white image, possibly a micrograph or a simulation output.
