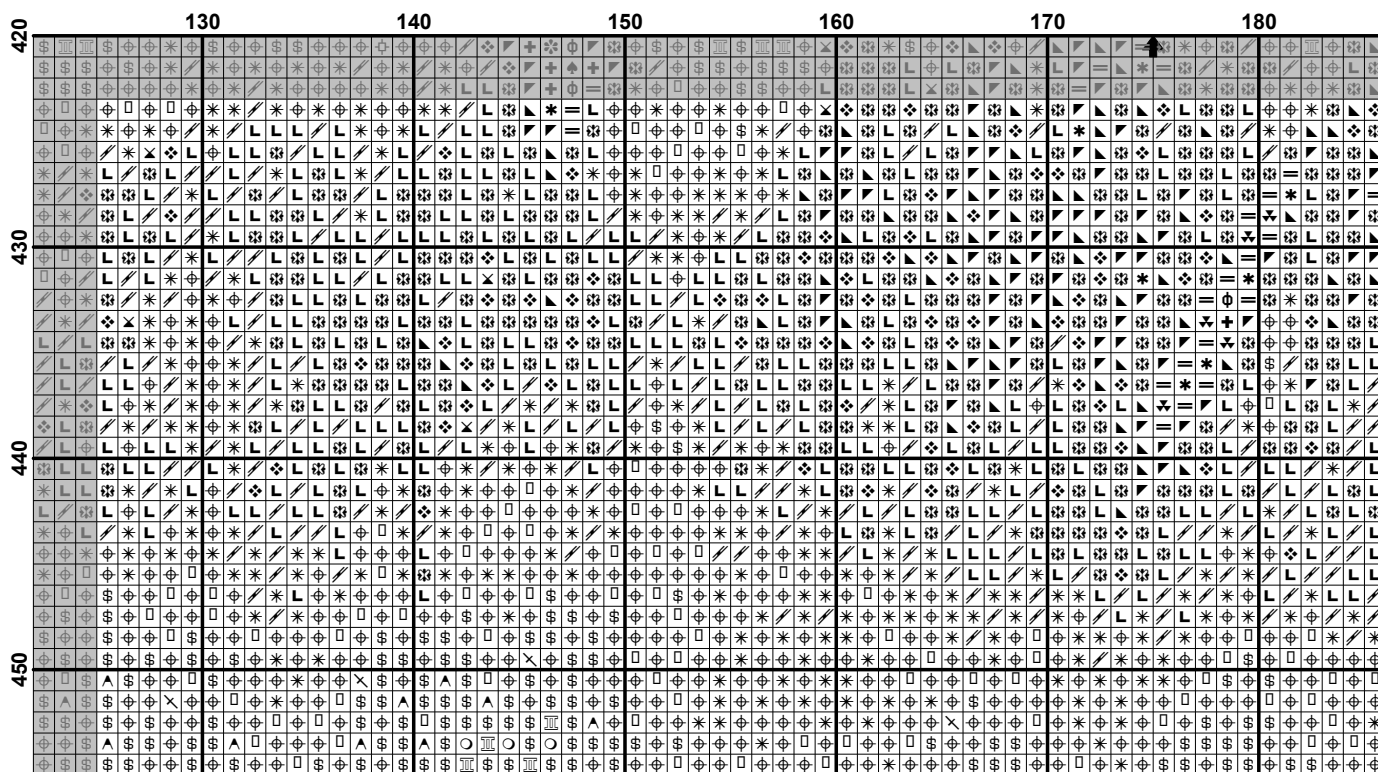

Figure 1 displays a 10x10 grid of small images, each representing a 10x10 pattern. The grid is organized by iteration number (190 to 240) and row index (420 to 450). The patterns evolve over time, showing a progression from simple, mostly uniform states to more complex, structured configurations. The patterns are arranged in a grid where the horizontal axis represents the iteration number and the vertical axis represents the row index. The patterns are arranged in a grid where the horizontal axis represents the iteration number and the vertical axis represents the row index. The patterns are arranged in a grid where the horizontal axis represents the iteration number and the vertical axis represents the row index.
