The figure displays a 10x60 grid of small images, each showing a different combination of 10 objects from a set of 10. The objects are: heart, star, cross, plus, minus, multiply, divide, percent, dollar, and at-sign. The grid is organized into 10 rows (420-470) and 60 columns (10-60). Each row contains 60 small images, and each column contains 10 small images. The objects are arranged in a way that each row and column contains exactly one of each object.

The figure displays a 10x10 grid of 100 small images, each representing a different combination of a number (190-240) and a shape (circle, square, triangle, diamond). The grid is organized into 10 rows and 10 columns. The columns are labeled with numbers 190 through 240 at the top. The rows are labeled with numbers 420 through 470 on the left. Each cell contains a small image of a shape with a number inside it. The shapes are circles, squares, triangles, and diamonds. The numbers inside the shapes are the same as the column labels (190-240). The background of each cell is a different color, creating a rainbow-like gradient across the grid.
