

Heaven and Earth Designs

Locked

(Large Format)

Chart No: HAEMAD 2007

Chart Design By Michele Sayetta

Artwork by Marta Dahlig

Finished Design Size 450 W by 544 H (18 W X 21-3/4 H inches on 25ct fabric)
(This Chart Contains 88 Colors)

Instructions

The model for Locked is recommended to be stitched over 1 on 25 count fabric but you may use any count that you are comfortable with. Please use 1 strand of floss or 2 depending on your coverage preference. Charts are recommended to be stitched from page 1 top left to the last page bottom right.

If the chart contains Kreinik 032 #4 (very fine braid) we recommend that you experiment with a couple of options. Start with 1 strand of Kreinik 032 Blending Filament with one strand of white as well as trying the Very Fine Braid to determine the look that you like most.

You may also use the tent stitch or full crosses depending on your preference.

We thank you for purchasing this design and welcome any questions or comments that you may have.

[illegible]

The image displays a large grid of 150 rows and 180 columns. The rows are grouped into 10 sets of 15 rows each, labeled on the left as 80, 90, 100, 110, 120, 130, 140, and 150. The columns are labeled at the top as 130, 140, 150, 160, 170, and 180. The grid is filled with a complex pattern of symbols, including letters, numbers, and special characters, arranged in a way that suggests a data visualization or a complex code. The symbols are distributed across the grid, with some areas showing more frequent occurrences of certain symbols than others. The overall layout is highly structured and repetitive, with the symbols appearing in a grid-like fashion.

230

The image displays a 10x10 grid of 100 small, square images. Each image is a grayscale or low-color representation of a different object or scene. The grid is organized into 10 rows and 10 columns. The rows are labeled 160, 170, 180, 190, 200, 210, 220, and 230. The columns are labeled 130, 140, 150, 160, 170, and 180. The images show various objects, including cars, buildings, and abstract shapes, arranged in a systematic pattern. The objects are often repeated within a row or column, suggesting a classification or categorization scheme. For example, the first row (160) contains many images of cars, while the second row (170) contains many images of buildings. The grid is a visual representation of a dataset, likely used for machine learning or computer vision research.

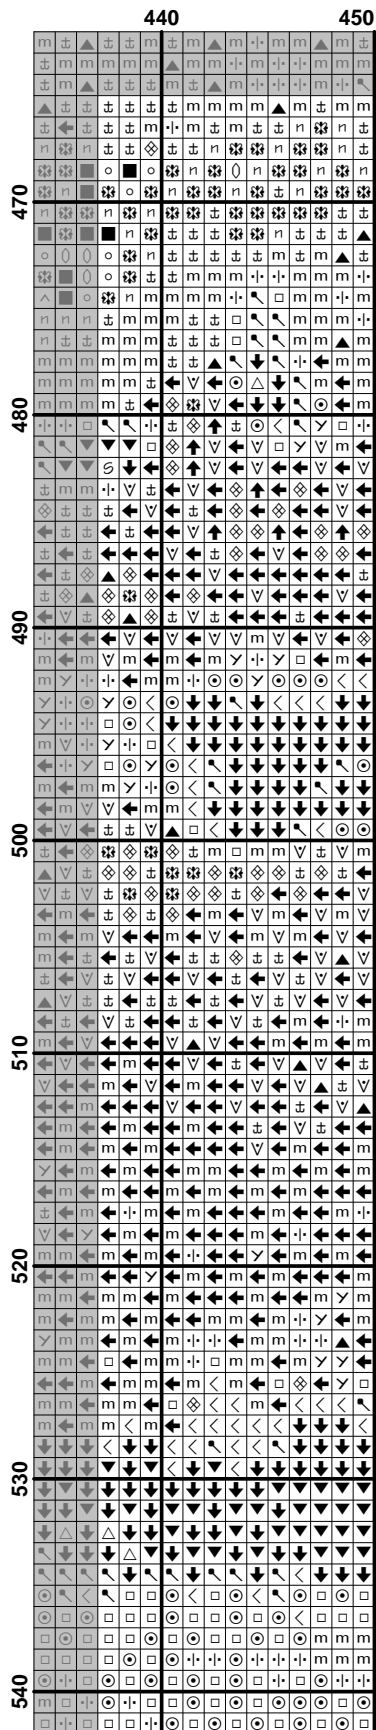

Figure 1 displays a 540x60 grid of symbols, organized into six horizontal sections labeled 10, 20, 30, 40, 50, and 60. Each section contains a repeating pattern of symbols, including hearts, diamonds, crosses, and various geometric shapes, arranged in a grid-like fashion. The symbols are color-coded: black, white, and grey.

Figure 1 displays a 3x100 grid of symbols, likely representing a sequence of 300 elements. The columns are grouped into 10 sets of 10, labeled 310 through 370 at the top. The rows are labeled 540, 530, and 520 on the left. The symbols are triangles pointing up, down, left, right, and combinations thereof, indicating a complex sequence of states or transitions.

Figure 1 shows a 2D vector field represented by a grid of symbols. The grid is 540 units high and 430 units wide. The columns are labeled 380, 390, 400, 410, 420, and 430. The rows are labeled 540 on the left. The symbols are small icons representing vectors, with some cells containing a '0' or a '1'.

A 5x40 grid representing a 540-degree range from 440 to 450 degrees. The grid contains various symbols like dots, squares, circles, and crosses, indicating specific data points or features at each degree interval.
